A secure & stylish way to bring colour into your home

Express yourself

Classic and simple, or modern and striking, make a statement in colour by choosing from thousands of doors in a sweeping range of shades and beautifully finished door furniture for a simple, affordable way to add aesthetic appeal to your home.

CRK install both front and rear doors, all with a series of locking options fitted to high precision that offer you both style and security.

For the icing on the cake, CRK's beautiful range of door accessories — including letterboxes, handles and door knockers — provide a finishing touch that's perfect for you.

Complete peace of mind

Whatever the design, colour or aesthetic detail, the first and last priority of a door is security. CRK's doors are designed, manufactured and fitted bespoke to your precise requirements and, like our windows, are provided with high security specifications and excellent energy efficiency.

Traditional Doors

The range of traditional doors are designed to replicate the most popular timber doors and come with highly defined mouldings and realistic wood-grain embossing on the surface. Whether used in a Victorian home, a modern townhouse or a farmhouse cottage, these doors always add to the appearance of the entrance.

These doors are transformed by the choice of decorative glass and colours, with 59 door colours available and a huge range of glass options, from the simple diamonds of Classic, through to the stunning multi-faced bevelling and black chrome coming of Reflections, these doors can make a real statement.

Minster

Minster pays homage to historic hammered glass and is most suited to period homes or more traditional door styles.

Pinpoint/Stippolyte

The timeless appeal of this stipple effect glass makes it one of our most popular options. The surface texture offers very high levels of obscurity and the design suits most door and house styles.

Rain/Cotswold

A more heavily textured pattern resembling water cascading over a surface. It is one of our most popular patterns and is especially suitable for doors that require higher levels of privacy.

Satin

Satin glass is an acid etched glass that offers high levels of privacy. It is a very neutral finish similar to sandblast and is ideal for use in both traditional and contemporary doors.
